

## **Summer Research Training for UG students**

UGC Center of Advanced Studies in Physico-chemical Aspects of Textile Fibres, Dyes and Polymers (CAS) - Institute of Chemical Technology invites applications for summer projects broadly in the area of research under this centre. The main activities of the CAS are polymer chemistry and physics, colour chemistry and physics, fibre chemistry and processing and computational color chemistry.

Students who have completed Second Year B Tech/B E in Chemical Engg/Technology or Second Year B Sc Physics/Chemistry/Mathematics are eligible to apply. The duration of the project is likely to be of 6 to 8 weeks. A few scholarships are available for meritorious students. The applications should reach the coordinators before 15<sup>th</sup> April 2011 (by email). The application should also contain a brief plan of research they intend to pursue and should be forwarded through the Institute.
